# Baramulla Bomber

Śvaṣṭik Trilōgy Ekā

by Clark Prasad

“Intelligent and comprehensive with enough narrative to support another instalment.”

*Kirkus Review, International acclaimed book review agency*

“The book forces a person to think and connect the dots. His way of writing makes the reader feel as if they are witnessing the events as they happen. It’s a must read for anyone who likes espionage stories.”

*Anupama Sensharma, Delhi*

“The head popping POV that the author has given to its characters made me love the book even more. For what I want to give Mr. Prasad a standing ovation is the brilliantly extensive and extensively brilliant research work which he has done for the book. It told me of the facts about Kashmir that I, even after being a Kashmiri, didn’t know about my land. In the age when the authors do not even bother to look up a dictionary while writing a book, Mr. Prasad has proved that if you work harder you’ll have a piece of gold in your hands in the form of the book. Hats off!”

*Jassi Mir, Srinagar*

*Baramulla Bomber* is a thriller that deals with the Kashmir issue and the nefarious designs of India’s immediate neighbours Pakistan and China. Both these nations are out to usurp Kashmir, topple Indian stability, disturb the superpowers of the developed world and destroy/control the world through a weapon – designed by a Pakistani nuclear scientist, a Nobel prize winner – that works on primordial sound for its destruction.

The novel blends in elements of an ancient secret society, the fashioning of the weapon using the Vedas, the Buddhist texts and the Bible, cricket, espionage by western world, not to forget romance and similar other high drama elements which add weight to the plot. The book is a page turner and should appeal to a wide mix of readers.
